Water Analysis Price List

The following table provides price data for available testing parameters.

Parameter	Testing Method	Price
pH	Probe	\$2
Turbidity	Turbidimeter	\$2
Conductivity	Probe	\$2
Salinity		
TDS		
Calcium	Calmagite Colorimetric Method	\$5
Magnesium		
Total Hardness		
Combined Nitrate/Nitrite	Cadmium Reduction Method with Colorimeter	\$6
Phosphate	Orthophosphate Ascorbic Acid Method with Colorimeter	\$6
Iron	FerroVer Method with Colorimeter	\$5
Manganese	Periodate Oxidation Method with Colorimeter	\$7
Arsenic	Test Kit	\$15
Free Chlorine	DPD Method with Colorimeter	\$5
Total Coliform with pH & Turbidity	Membrane Filtration, incubation at 37.5 deg C	\$11
<i>E. Coli</i> with pH & Turbidity	Membrane Filtration, incubation at 44 deg C	\$11
Total Coliform & <i>E.Coli</i> with pH & Turbidity	Membrane Filtration, incubation at 37.5 deg C	\$15

Other Available Packages:

Standard Tests for Drinking Water		
PH, Turbidity, Conductivity (TDS & Salinity), Total Hardness, Nitrates, Nitrites, Manganese, Iron, Total Coliform & Ecoli		\$42
Swimming Pool – Salt Water		
PH, Turbidity, Conductivity (TDS & Salinity), Total Hardness, Nitrates, Nitrites, Manganese, Iron, Total Coliform & Ecoli	Methods to be used as applicable	\$42
Swimming Pool - Chlorinated		
As above + Free Chlorine	Methods to be used as applicable	\$47
Sample Collection fees		
5 km radius from lab		\$5
Each Additional 5 km thereafter		\$1
